Georg W. Park,
Seedsman and Florist,
Libonia, Penn'a.
THE BROWN STEAM-POWER SEED-PACKING MACHINE.

Here is an illustration of one of the seed-packing machines used in Park's Seed Establishment. It is the invention of an ingenious Yankee schoolmaster, and is marvellous in its operation. All that is needed is to put the seeds into the hopper at the rear and the seed-bags into the long trough at the front, and throw on the power. The machine does the rest, measuring the seeds for each packet, depositing them in the little seed-bag, turning the leaf, sealing it, and depositing it in a basket all by machinery. It also counts the packets. Though reliable it is very complicated, and its parts work automatically, as though possessed of life. It is destined to work a revolution in the prices of seeds, as it enables the seedman to do an immense business with little trouble or expense in packing. Our machines turn out 60,000 seed packets per day. Call and see them at work.

Nearly Half a Million

Of flower-loving people are made happier every year by using Park’s Seeds, Bulbs and Plants. This enormous and growing patronage has been secured

1ST, BY SUPPLYING ONLY THE BEST.

A seed is worthless unless it grows. But it is worse than worthless if it grows, and by its inferior product is a source of annoyance and disappointment. The same is true of Bulbs and Plants. To get only the best contracts are made with growers who are specialists in their line, who understand their business, and who are located in those parts of the world where the various flowers grow to perfection. You thus get fresh, pure and reliable seeds, and not the surplus, deteriorating stock of some wholesale seed houses.

2ND, BY QUOTING LOW PRICES.

Prices are not lowered at the expense of the quality of the stock. But to supply the best at the lowest prices has been a study. The enormous trade done enables the proprietor to get special prices on stock, not only on seeds, bulbs and plants which may be purchased, but on nearly everything pertaining to the trade. Seed-bags are contracted for by the million, freight by the car-load, and system is introduced in every department to facilitate the business and conduct it economically. The benefits secured are turned over to the patron in lower prices. In some choice seeds the margin of profit is hardly in sight, but the great number of sales thus secured makes it a matter of consequence in the end.

3RD, BY SELLING SPECIAL MIXTURES.

When the amateur buys a packet of seeds of mixed colors, he wants all the colors represented; he does not want white or scarlet or blue or any other color to predominate, but a fair proportion of all the known colors or varieties. This proportion cannot be secured by the ordinary foreign mixtures. It can only be done by mixing the different colors or varieties obtained separately. The special mixtures offered in this GUIDE have become very popular from practical use, as they are prepared under Mr. Park’s personal supervision. This matter, neglected by most seedsmen, he gives very careful attention to, and his efforts are repaid in the very great satisfaction his mixtures have given.

4TH, BY BRINGING THE ESTABLISHMENT TO YOUR DOOR.

The prices in this GUIDE cover all expenses. Simply make out and mail your order with the required amount, and the goods will be promptly forwarded by mail or express free of all further cost. If mistakes are made in filling your order they will be gladly corrected. If the goods should be damaged or lost in transit a duplicate package will be sent. You are released of all risk, either in forwarding money or in forwarding goods. The establishment is thus brought to your door, and you can as safely make your purchases as if you were present.

ALL THESE POINTS SECURE ENTIRE SATISFACTION.

Reader, the above are not loose, wordy statements. They are facts. Your patronage is solicited, nd a trial will convince you that this is the place to buy your Seeds, Bulbs and Plants. By uniting industry, strict integrity, liberal treatment and personal regard and feeling for the interest and welfare of his patrons Mr. Park has gained the confidence and friendship of the hundreds of thousands who favor him with their patronage. And by continuing the same policy he hopes to add many new names to his list the present year. Reader, will you come in and be one of our big floral family?

SPECIAL OFFER—50 CENTS’ WORTH OF SEEDS FREE.

PARK’S FLORAL MAGAZINE is a charming monthly, entirely floral, profusely illustrated, and literally packed with delightful and practical reading for the amateur florist. It keeps you posted concerning novelties, names your flowers, answers questions, and tells you just how to succeed. No aultivator of flowers should be without it. 50 cents a year, and every subscriber may select 50 cents’ worth of seeds from this GUIDE as a premium. A fine Tuberous Begonia, any color, for each additional subscriber sent with your own; or six subscriptions and $3.00 worth of seeds will be sent for $2.50. Get up a club. Blanks, samples and full information free.

HOW TO REMIT.—Send money by Money Order, Express Order, Draft or Registered Letter. Sums under $1.00 send in postage stamps. I guarantee money to reach me when sent as advised. If lost, the loss is mine. Always address your letter plainly, giving name, post office, country and State, and before sealing see that the remittance is sufficient to cover the purchase. Address

GEO. W. PARK, LEBANON, FRANKLIN CO., PA.
INTRODUCTORY REMARKS, 1897.

DEAR PATRON:—The past year, I am happy to say, has been the most successful and satisfactory I have experienced during my career as a Seedsman, Florist and Publisher. Everything pertaining to my complex business has been progressive, and today, with greatly increased facilities, I feel more than ever encouraged to extend my growing trade, and exercise renewed energies to please my patrons by honest and liberal treatment. To this end, and to meet the general decline in prices of labor and products, I issue the FLORAL GUIDE for 1897 with offers of the choicest garden and window flowers at lower prices—prices that cannot fail to be popular. The descriptions and illustrations are not overdrawn. They are not intended to excite expectations that must eventually result in disappointment. I would rather relinquish my business than to deceive a single patron, or effect sales upon a false representation. I do not claim to be the seedsman who issues a fancy catalogue to be the only seedsman who sells good seeds or to be the publisher who issues the "only Magazine devoted entirely to flowers"; but I do lay claim to honesty and candor, when I tell you that this GUIDE is plain and practical, and that the seeds I offer, even at the very low prices quoted are the best that can be produced. I mean what I say when I tell you that my earnest aim and effort is to bring my establishment right to your door, and treat you so well that you will find it a pleasure to deal with me, and will speak a good word to your neighbor on my behalf. And, dear patron, let me say right here, if you have, at any time, cause for complaint, just write to me and make it known. In dealing with nearly half a million patrons mistakes and irregularities will occur, but you will always find me ready and willing to make corrections, and satisfy any reasonable demand. You will never be mistreated or neglected, and any apparent ill-treatment or neglect must have a cause which I hold myself in readiness to remove.

"HOW CAN HE AFFORD IT?"

The first question that will come to the mind of the reader when the prices quoted in this Catalogue are noticed will be "How can he afford to run his business in this manner?" so I will explain. I believe in the principle of "Great sales and small profits." To have a profit at the prices quoted I contract for the best quality of seeds, to be delivered in large quantities, and thus get special low prices. That the seeds may be first-class I deal with specialists in different parts of the world where the various flowers grow to perfection. When these seeds are delivered they are run through our steam-power packing machines, which have a capacity for filling and sealing 60,000 seed packets daily. The seed bags are contracted for by the million, at special prices, and thus the difference between wholesaling and retailing is greatly reduced, so that the seeds can be profitably retailed at almost wholesale prices. The reader, unless he knows something about the trouble and expenses of the seedsman, can hardly be made aware of the wonderful economy of this method of conducting a seed business. The supplying of packed seeds is made almost as simple and easy as wholesaling. As I write the click of the packing machines as they turn out their six thousands of filled and sealed packets per hour, comes to my ear, and it is as sweet music when I remember the annoyance and the unsatisfactory work of a host of hand laborers who could not put up one-fourth the number of seed packets that these machines turn out.

Kind patron, let me thank you for your patronage. Your earnest efforts have greatly promoted my success, and it is a pleasure as well as a duty to express to you my appreciation and gratitude. The kind word spoken in my behalf has brought me many an esteemed patron, who, in turn, has spoken to others, and thus were formed the links in the great chain of patrons that has brought me success. If you have never dealt with me, however, let me ask you to give me a trial order. You will find the seeds all I recommend them to be, and you will be honestly dealt with and liberally and satisfactorily served.

Again assuring you of my appreciation of past favors, and wishing you enjoyment and success in your floral work this season I await your orders, which are the more appreciated because of the friendly words which they often convey, and the glowing, hearty expressions of good will which lighten the burdens of a great and complex business, and inspire renewed zeal in the evocation which I have chosen as my life-work. Florally yours.

LIBONIA, Pa., Feb. 6, 1897.

GEO. W. PARK.
New Crop Offering for 1897

OF

CHOICE FLOWER SEEDS,
FOR THE
Garden and Window.

Superb New Edging and Bedding Plant.
Little Dorritt Ageratum, blue, 3 cts. per packet, 4 packets for 10 cts.
A compact, blue-flowered edging and bedding plant has long been desired, and it is a pleasure to offer this new Ageratum (Little Dorritt) as it just fills that want. The plants start readily from seeds, soon come into bloom, and being of low, compact growth and very floriferous, they become a mass of showy clusters of that clear, rich sky-blue color so much admired. Set ten inches apart. They bloom continuously. Make fine window plants. 3 cents per packet; 4 packets 10 cents.

OTHER CHOICE AGERATUMS.
Conspicuum, white, long-blooming, fine for cutting.......................... 3
Lavender, fine rose, fine for cutting... 3
Little Dorritt, white, fine, new........ 5
Mexicanum, blue and white, new...... 3
Swanley Blue, large-flowered, fine... 3
Imperial Blue, dwarf, blue........... 3
Imperial White, dwarf, white....... 3
Countess of Stair, blue.............. 3
Special mixture of all varieties, 3 cents per packet, 4 packets 10 cents.

A Charming New Sweet Alyssum.
Alyssum comp. procumbens, 3 cts. per pkt.
The Sweet Alyssum has long been an indispensable flower, either for a show in the garden or window, or for working up with other flowers in bouquets and designs. The new variety here offered is, however, a grand improvement upon the old-fashioned sort. The plants are dwarf, grow compactly, cover the ground completely, and bloom so freely that the variety is often called White Carpet. In a pot, vase or basket the graceful sprays hang over and form a charming object of green and white, as shown in the engraving. The flowers are pure white, in large, dense clusters. Machine packed seeds, 3 cents per packet, 4 packets for 10 cents.

OTHER VARIETIES OF ALYSSUM.
Common Sweet, ounce 50 cents, packet.......................... 3
Little Gem, dwarf and compact.......................... 3
Special mixture of all varieties, machine packed seeds, four packets 10 cents, one packet.......................... 3

Abroma umbellata, succulent annual from California, known as Sand Verbena; lilac color..... 5
Arenaria, yellow, Villosa, rose, and mixed, each... 5
Adonis Aestivalis and Autumnalis, hardy annuals with scarlet flowers, separate or mixed.... 3
Agrostemma coeli-rosa, hardy annuals, small, pink-like flowers in profusion, special mixture.... 3
Alousson, a graceful little annual for pots; flowers mostly scarlet, rich and showy. All the leading varieties, each........ 5
Special mixture of all sorts.................. 3
Anechusa capensis, a rough plant growing two feet high with pretty blue flowers; a valuable honey-producing plant.................. 3

Anagallis, the well-known Pimpernel; plants a foot high, bearing a profusion of red and blue flowers. The leading varieties, each........ 5
All varieties in special mixture.................. 3
Anemone coronaria, a tuberous plant one foot high; flowers large, poppy-like, borne in early spring; white, red and blue, special mixture........ 5
Fulgens, red, and Sylvestris, white, each........ 5
Arabiss arenosa, hardy annual, like Sweet Alyssum in habit; white clusters in summer and autumn.......................... 3
Argemone, prickly plants two feet high with yellow and white flowers; mixed colors...... 3
Asperula azura setosa, an annual one foot high, flowers tubular, light blue, in clusters........ 3
Snapdragons have become popular as garden flowers because they are easily propagated and easily grown, while they bloom continuously and freely and are showy and much admired. The Tall and Dwarf Snapdragons have been under cultivation for some years, and are general favorites, but the new semi-dwarf Calceolaria-flowered varieties, though of superior beauty, are as yet but little known. The plants of this race of Snapdragons are vigorous, bushy, and covered with rich green foliage, while the spikes of bloom are numerous, dense and exceedingly showy, the flowers being large, delicate in texture, and exhibiting the most lovely new shades and variegations. They are of wonderful beauty, and cannot fail to please all who secure them. Finest special mixture of the following choice named varieties, machine packed seeds, 3 cents per packet; 4 packets for 10 cents.

"Plants of Snapdragon bloom the first season, and if not allowed to waste their strength in seed-bearing will live over winter, as they are very hardy. The next season they will grow taller and bloom even more freely than the first. Don't be stingy with this flower. It is literally "cut and come again," and the more you use and give away the more you will have. They are easy to grow, but the seeds are small and should not be covered deep. It is best to sow in the house and transplant." — L. S. LaMance, McDonald Co., Mo.

### The Graceful Fern-Tree Acacia.

**Acacia lophantha, 3 cts. per pkt., 4 pkts. 10 cts.**

Acacia lophantha, known as the Fern-Tree Acacia, is an easily grown plant with elegant fern-like foliage. The seeds resemble a small black bean, and are successfully started by anyone. The plants grow three to four feet high in one season, and are elegant as pot plants for table decoration, or for bedding in a sheltered nook out-doors. Set the plants eight inches apart in the bed. Grown in pots the plants should be cut back to promote branching, and given plenty of pot-room by shifting as they grow.

Mr. Park:—My Fern-leaved Acacia is six feet tall, with branches a yard long. It surprises all who see it.—L. W., Brown Co., Ky.

Mr. Park:—I wonder that Acacia lophantha is not generally known and cultivated. It is delicate in habit, very beautiful, does not require sunlight, and will endure almost anything but frost.—Marguerite White, Nebraska.

### Amaranthus, very showy, easily grown annuals, always brighter in a dry soil or dry season.

Some are valuable for their foliage, others for their flowers. A. Gibbosus is an improved form of Love-lies-bleeding. The mixture contains all the sorts; per pkt. 2 cts., 4 pkts. 10 cts.

<td>A. annua is exceedingly graceful, the plants often reaching six feet in height, clothed with delicate, fragrant foliage. The sprays of green are much prized for bouquets. A plant of this is fine for the center of a bed or for a back border. A. gracilis has Fennel-like foliage, and is a hardy perennial growing only two or three feet high. It is easily grown from seeds.</td>
<td>3 cts.</td>
</tr>
</tbody>
</table>

Mr. Park:—Artemisia or Sweet Fern is a lovely foliage plant, and so delicately fragrant that it could not be objectionable to anyone. Sow a few of the seeds in two pots or tomato tins, keep the soil moist, and in a month or two they will be masses of delicate feathery green.—Mrs. S. H. Snider, Napinka, Man.

### Aster tenellus, single blue flowers in profusion; pleasing and showy; sow early.

3 cts.
3 cents per packet, 4 packets 10 cents, special mixture of all the choice varieties. Here is a list of the colors of Improved Paeony-flowered Perfection Aster, all of which are carefully proportioned in the mixture. I can also supply the colors separately.

**SUPERB NEW POT AND BEDDING ASTERS.**

*Improved Paeony-flowered Perfection Dwarf, 3c. per pkt., 4 pkts. 10c.*

Have you seen the beautiful new Aster—Improved Paeony-flowered Perfection Dwarf? It is undoubtedly the finest French Aster for either pots or beds. The illustration shows the outlines of the flowers, and the charmingly incurved form of the petals. The plants grow about a foot in height, are vigorous and bushy, and the superb large flowers exhibit a wonderful variety of rich shades of red, white and blue. Whether you wish for a fine display in window or garden, you cannot go amiss in getting this elegant French Aster. My seeds are of the finest quality, and offered at a bargain, only

VICTORIA PRIZE ASTER.

This is the finest of German Asters, and one of the most beautiful in cultivation. The plants grow eighteen inches high, and bear very large double flowers of a wonderful variety of colors. Fine for either pots or beds. Dark crimson 5 Reddish blue and white 5

- Dark scarlet 5
- Light blue 5
- Light blue and white 5
- Light violet 5
- Indigo on white ground 5
- Dark blue and white 5

Splendid mixture of above sorts, 4 pkts. 1c, one pkt.

Quilled German, finest mixed 3 New Dwarf Victoria, fine for pots, finest mixed 3

Globe-flowered German, mixed 3 German Emperor, finest mixed 3

Globe-flowered Pyramidal, mixed 3 Schiller, late bouquet Aster, m'x'd 3

Bolt's Dwarf Bouquet, mixed 3 Vick's Branching Aster, white 3

Improved Paeony-flowered Perfection, finest mixed 5 Lilliput, small flowers, mixed 3

New Paeony flow'd Globe, mixed 5 Comet, Japanese flow'd, mixed 5

New Giant Emperor, finest mixed 3

Complete mixture of all varieties, put up by our steam-power packers, four packets for 10 cents, one packet

**OTHER CHOICE VARIETIES.**

WASHINGTON ASTER.

Height eighteen inches; flowers of great size and all the leading colors. Eight fine Mixture, each 3 cents. The same mixed, 3 cents per pkt., 4 packets 10 cents.

QUEEN OF THE MARKET ASTER.

The earliest of Asters; one and a half feet high, and used for both pots and beds. I can supply eight colors, shades of white, red and blue, at 8 cents per packet. A special mixture of the colors, 3 cents per packet, 4 packets 10 cents.

COCARDOU OR CROWN ASTER.

Two feet high, bearing large, full-double flowers of various rich colors, all with pure white center; very attractive and much admired. Eight colors, each 8 cents. Special mixture 3 cents per packet, 4 packets 10 cents.

LARGE-FLOWERED DWARF CHRYSANTHEMUM ASTER.

A very handsome race of late-blooming Asters. The plants grow a foot high; flowers very double, of many colors, and finely imbricated. Valuable for either pots in the window or beds on the lawn. Splendid mixture, 23 colors, 3 cents per packet, four packets 10 cents.

**Notes:** The Aster seeds offered above are all of the finest quality, and can be depended upon to produce the finest flowers of their respective kinds. The mixtures were packed by steam packers, reducing the cost, so that the prices are exceedingly low.
The Finest of all Balsams.

Prize Camellia-flowered, plain and spotted, 3 cts. per pkt., 4 pkts. 10 cts.

One of the most beautiful of garden annuals is the Balsam, and certainly the finest of all the races of the Balsams is the Prize Camellia-flowered, superior seeds of which are here offered. The flowers of this strain are of wonderful size, show all the new shades of color, as well as spotted, and in form and texture rival the beautiful Camellia, one of the most admired of all flowers. The plants start and grow readily, promptly come into bloom, and continue in bloom throughout the season. Set a foot apart they make a lovely low hedge or border. The cut flowers look well in dishes of water. I can supply these grand Balsams to color, as follows:

Camellia-flowered.

Pure scarlet
Scarlet, spotted
Light yellow
Lilac
Crimson
Rose, spotted
Violet
Violet, spotted
White, reflecting lilac
White, reflecting rose
Complete special mixture,
embracing all the above sorts in careful proportion.

Packet each, 3 cents, per packet, 4 packets for 10 cents.

Improved Rose-flowered, large, double flowers, 15 splendid colors, separate or mixed, per packet

Carnation Striped, beautiful double flowers, distinctly striped; six colors, separate or mixed, per packet

Solfirino, double striped and spotted flowers; six fine sorts, separate or mixed, per packet

Avesanguineus, rich blood red, very double

Dwarf spotted, finest mixture

Mr. Park—sent for a package of the Improved Balsam seed, and have thirty plants of all colors, double as Roses. They are beautiful and very showy. Give them plenty of water and they will more than repay you. Mine took the first premium at our county fair. Ima, Geauga Co., 0.

Borecole, Ornamental, beautiful foliage plants for outdoor use in winter. Sow in May, set in poor soil till frost, then bed, setting the plants the depth of their stems. Finest mixture

Bromptonia aurea, showy yellow-flowered annual from California

Bidens atrosanguinea, the so-called black Dahlia

Grandiflora, large yellow flowers

Both varieties mixed

Brachycome iberidifolia, the Swan River Daisy, blue and white Cineraria-like flowers; a pretty, early grown annual. The colors, separate or mixed, per packet

Brocatella elata, annual, bearing blue, white and purple flowers. Fine pot plant for winter-blooming; colors separate or mixed

Caeclia sonchiflora, Flora's Paint Brush, yellow and scarlet; useful in bouquets; separate or mixed

Callirhoe, mostly trailing hardy perennials of the Mallow family, sometimes called Trailing Hollyhock. Flowers two inches across, and showy. Separate or mixed, per packet

Other Choice Balsams.

Double Spotted, all the flowers distinctly spotted with white; very double; 12 fine colors, separate or mixed, per packet

The King, intense scarlet, very fine

The Queen, satiny rose, lovely

Dwarf Camellia-flowered, fine mixed

Balsams, all varieties in splendid mixture, containing all the above sorts carefully proportioned, packed by our steam-power machines, four packets for 10 cents, per packet

Calandrinia, rather showy succulent plants; do well in a dry, sunny place; flowers of various shades of red; six varieties, separate or mixed

Callipogon, the well-known Black-eyed Susan; flowers of many shades of red and golden yellow, double and single; showy; I can supply about a dozen varieties of this flower, separate or mixed

Candystuff, very showy hardy annuals for beds. Sow where the plants are to bloom, and thin to six inches apart

Amaranthus, 3 cts. per packet

Special mixture of all colors

[5]
New Giant Chrysanthemum-flowered Calendula.

Special mixture, all colors, 3 cents per packet, 4 packets for 10 cents.

Few persons are aware of the great value of the Double Calendula or Pot Marigold as a garden flower. The plants are strong in growth, bushy in habit, and are easily started from seeds. Set a foot apart in a bed they will cover the bed completely, will produce a mass of golden bloom in summer, and will increase in show and beauty until frozen stiff or covered by the snows of winter. The new Chrysanthemum-flowered varieties here offered are beautiful. The flowers are very double, of great size, of the richest colors, and borne in abundance. Fine winter-blooming pot plants for a cool room. I offer the following choice sorts of this elegant strain:

<table>
<thead>
<tr>
<th>Chrysanthemum-flowered, Primrose yellow</th>
<th>5</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chrysanthemum-flowered, golden yellow</td>
<td>5</td>
</tr>
<tr>
<td>Pongei fl. pl., double white</td>
<td>5</td>
</tr>
<tr>
<td>Meteor, yellow striped orange</td>
<td>5</td>
</tr>
<tr>
<td>Regalis, double orange</td>
<td>5</td>
</tr>
</tbody>
</table>

Special mixture of all varieties, including Chrysanthemum-flowered, machine packed seeds, 4 packets 10 cents, one packet.

New Dwarf Gladioli-flowered Cannas.

Per packet 10 cents, 3 packets 25 cents.

The new strain of Dwarf Flowering Cannas embraces many varieties of great beauty; the flowers of which are as large as those of the old-fashioned Gladiolus, and quite as brilliant and showy. The plants have grand, semi-tropical foliage, bear the sun well, and when massed together in a bed are exceedingly showy. They are easily raised from seeds, and if started early bloom the first season. Chip the bony shell of the seed before sowing to hasten germination. The seeds I offer are of surpassing quality, having been saved by Mr. Crozy from his celebrated collection of the best new varieties. Price, per packet 10 cents, 3 packets 25 cents.

Mr. Park:—I find the Crozy Cannas an excellent winter-bloomer, and the foliage is beautiful.—L. W. R., Newcastle Co., Delaware.

Mr. Park:—My dwarf Cannas are fine this summer. Some have three spikes of bloom to each stalk.—S. J. M., Crawford Co., Ill.

**Campanula**, annual, showy little plants, some upright, some trailing, flowers white and blue. A dozen varieties, separate or mixed... 3

*Carduus* marianus, a thistle-like plant with spiny light green foliage, velvety white... 3

*Benedictus*, St. Benedict's Thistle... 3

**Catharanthus** roseus, annual, yellow flowers... 3

*Catleya*, a hardy annual of the Pink family (Silene armeria); one foot high, white and red, separate or mixed... 3

**Centaurium** Drummondii, an annual, one foot high; yellow daisy-like flowers... 3

*Centranthus* macrosiphon, a continuous-blooming annual growing a foot high. Flowers small, tubular, large clusters. Blooms well late in the season if sown in midsummer. Rose, white, flesh and variegated, separate or mixed, 4 packets for 10 cents, one packet... 3

**Champaca**, discantha, the Fish-bone Thistle... 5

*Clarkia*. Very pretty annuals, a foot high, bearing showy flowers, single and double, of various shades of white and red. I have 18 varieties, and can supply them separately or in special mixture, at 4 packets for 10 cents, one packet... 3

*Clionema*, a tall-growing plant, branching freely and bearing racemes of rather showy spider-like, purplish-rose flowers... 3

*Clintomia*, the basket plants not unlike Lobelia; colors red, white and blue, separate or mixed... 3

*Colchicum*, very beautiful but faddish bloom throughout the season; somewhat resembles *Tragopogon*. Seeds start readily and bloom the first season. Does well in moist ground; will bloom in winter in pots. Blue, white or variegated, separate or mixed... 3
Elegant Annual Chrysanthemums.

Complete mixture, all sorts, 3 cents per packet, 4 packets for 10 cents.

The annual Chrysanthemums are excellent plants for either pots or beds, and are of the easiest culture. Seeds germinate quickly, while the plants begin to bloom early, and continue till after severe frosts. Set eight or ten inches apart they make a showy bed; in pots they grow and bloom freely, and are fine window plants. Started as pot plants in mid-summer they bloom well throughout the winter. The engraving shows the double imbricated variety, but Dunnett's white, yellow and purple are just as double and showy. Whether single or double, all are brilliant and excite admiration by their rich and finely contrasted colors. I offer the following splendid collection:

- Coronarium fl. pl., double yellow...
- Album fl. pl., double white...
- Imbricatum fl. pl., double, see engraving...
- Sulphureum fl. pl., double, sulphur...
- Special mixture of the above sorts...
- Carinatum (tricolor) album, single, white...
- Atrococineum, single, crimson (The Sultan)....
- Atrococineum nanum fl. pl., new double dwarf...
- Burridgeanum, rose and white, single...
- Dunnetti album fl. pl., white, double...
- Dunnetti aureum fl. pl., golden, double...
- Dunnetti purpureum fl. pl., purple, double...
- Hybrideum fl. pl., double sorts...
- Eclipse, brown and yellow, single...
- Golden Feather, yellowish, foliage...
- Nanum hybridum, dwarf, single...
- Inodorum plenissimum, fine double white flowers, useful for cutting...

Complete mixture, containing all varieties in careful proportion, 4 packets for 10 cents, per packet.

Plume-flowered Celosias.

Machine packed, 4 packets 10 cents, one packet 3 cents.

There are few annual flowers that are more satisfactory than the New Improved Plume-flowered Celosias. Set a foot apart in a bed they make a gorgeous display, and become even more attractive as the season advances, until cut down by frost. Grown in pots they may be removed to the window or conservatory, where they are equally as decorative in-doors as out. The seeds I offer are of a fine strain, and will produce immense golden and crimson plumes.

- New Plume flowered, Kermesina, crimson...
- Triomphe de l'Exposition, rich crimson...
- Aurea, bright golden yellow...
- Violacea, reddish violet...
- Purple...
- Rose...
- White...

Special mixture of all varieties, carefully prepared, and packed by our steam-power packers, 4 packets 10 cents, one packet.

Celosia cristata nana, Coxcomb, a curious and beautiful annual, the flowers appearing in immense comb-like heads; colors, purple, yellow, rose, sulphur, violet, rich crimson, scarlet and variegated. It is important to secure seeds of a fine strain, as the inferior combs are not valued. My seeds are saved only from the finest combs, and can be depended upon. Twelve colors, separate or mixed, 4 packets, 10 cents, one packet.

C. japonica, the Japan Coxcomb, rich crimson combs...

Capsicum, Ornamental Pepper. Very showy fruit-bearing pot or garden plants, easily grown, and always admired. Fruits of many shapes, sizes and rich colors. I have 25 varieties, as Cardinal, Celestial, Elephant's Trunk, Fancy Wrinkled, Kaleidoscope, Monstrous, etc.; the fruits yellow, red, scarlet, white, and varying from the size of a pea to those a foot in length. Varieties separate, each 5 cents. Special mixture of all sorts, machine packed, 4 packets 10 cents, one packet.

Cosmidium Burridgeanum, a half-hardy annual from Texas; dark purple flowers like Coreopsis.
Superb New Giant Early-flowering Cosmos.

**THE NEW DOUBLE-FLOWERED CORN BOTTLE.**

Centaurea cyanus f. pi., per pkt. 3 cts., four packets for 10 cents.

The old-fashioned Corn Bottle has been a favorite garden flower for many years, because it is sure to grow, sure to bloom, very attractive in color, and the flowers are useful for cutting. The new double sort is much more showy than the old, because the flowers are larger and of more substance. The seeds offer are first-class, and will produce about 5000 per cent. of fine double flowers of all the various colors of the single-flowered Corn Bottle 3 cents per packet, 4 packets for 10 cents.

OTHER VARIETIES.

Comp. Victoria, dwarf blue, excellent.............. 3
Nana compacta hybrid., miniature Corn bottle, very dwarf and compact in growth; fine for pots and edgings................................. 5
Suaveolens, Sweet Victoria, pink, white or mixed.............. 3

Complete mixture, annual and perennial, 4 pkts. 10 cts., pkt.............. 3
Lovely New Hybrid Carnations.

**Dianthus Caryophyllus, early-blooming, packet 3 cts., 4 packets 10 cts.**

Within the past few years the European florists have given much attention to the improvement of the Carnation, and by crossing and careful selection have produced early-blooming and continuous-blooming varieties which rival the old-fashioned kinds in beauty and attractiveness. Following are some of the new strains I can supply:

Margaret Imp and semi-dwarf plants which begin to bloom two to three months after the seeds are sown; flowers double and fragrant, and of many colors. Each 10 cts. of the seeds will produce 5000 flowering plants; finest mixture, per packet...

Early flowering Dwarf Picotees, a superior race of Pinks, hardy, early, double, and of many colors; mixed, per packet...

Early Margaret, white, a fine hardy Carnation for the summer; flowers double, white and fragrant...

Early Margaret Giants, very large blooming strain; very dark mixed...

New Ottona Pink Marguerite, a new cross between the Chinese Pkt. and the Carnation, having characteristics of both; bloom the 1st season; per pkt...

New Large-flowered Hybrid Border Carnation, very double, rich and varied in color; fragrant, hardy, mixed colors...

COMPLETE mixture of all these early-flowering hybrid Carnations, machine packed, 3 cts. per packet, four packets for 10 cents.

---

**SUPERB LARGE-FLOWERED JAPAN PINKS.**

**Dianthus Chinensis, complete mixture, 3 cts. per pkt., 4 pkts. 10 cts.**

These Pinks bloom freely the first season, and are splendid garden plants. The flowers are exceedingly rich in color, and produced throughout the season. The fine strains I offer will be found far superior to those offered by other...
Dahlias are becoming fashionable again, and there is a great demand for both seeds and plants. The improved varieties are a great advance upon the old-fashioned ones in variety and novelty of color and floriferous habit, and deserve all the attention they receive. I offer seeds of the finest strains of single and double flowered Dahlias found in France and Germany, all in splendid mixture at the marvellous price quoted. Following are some of the sorts embraced in the mixture:

- Improved Large-flowered Double, finest mixture, saved only from the best double, tall-growing varieties... 10
- Improved Double Dwarf, finest mixture of the best dwarf varieties... 10
- Improved Double Lilliput, beautiful small-flowered sorts, showy in beds; fine for bouquets; mixed... 10
- Improved Single-flowered variegated, margined, striped and spotted, in splendid mixture... 5
- Improved Single-flowered, extra fine mixed... 5
- Complete mixture of all varieties, double and single, French and German, put up by our steam packers, four packets 10 cents, one packet... 3

Note.—Dahlias are as easily raised from seeds as Zinnias, and bloom the first season. The roots may be kept over winter for future service by digging in autumn when the ground is wet, drying the clumps with the earth adhering, and storing on an upper shelf in a frost-proof cellar.

Large-flowered Double Daisies.

Special mixture, 4 pkts. 10 cts., one pkt 3 cts.

The Double Daisy (Callis perennis) has been greatly improved lately, the plants being of more robust growth, and the flowers larger and perfectly double. For an edging, or for a bed having a northern aspect the Daisy is well adapted. The plants are hardy, and bloom almost continuously. In a cool room they bloom freely in pots during winter. About 50 per cent. of the plants raised from our superior seeds will bear perfectly double flowers.

- Large-flowered Crimson, very showy dark rose flowers, produced on strong, vigorous stems... 5
- Large-flowered White, superb large flowers; pure white; fine for cemetery planting... 5
- Special mixture of both varieties, finest quality, put up by our steam packers, 4 packets 10 cents, one packet... 3
Lovely California Eschscholtzias.

Double and single, all colors, 3 cents per pkt., 4 pkts. 10 cents.

Among the most showy and beautiful of annuals, either in foliage or flower, are the various Eschscholtzias, known as California Poppies. The plants come quickly from seeds, which may be sown either in the fall or spring, and the dense, plummy, silvery foliage forms an elegant setting to the large, showy, mostly rich golden flowers. This annual might well be termed silver and gold on account of its silvery foliage and golden flowers. There are other colors than golden yellow, however, some being white, some rose, pink, etc. The flowers are also both single and double in form. Sow the seeds where the plants are to bloom. The mixture I offer is specially prepared, and contains all the choice new varieties. Packed by our new steam packers. Price 3 cents per packet, four packets for 10 cents.

**Erysimum**, hardy annuals growing a foot high; flowers yellow and orange; mixed.

**Eucalyptus**, Californian annuals, with white, rose and red flowers; neat, free-blooming; mixed.

**Emmanthus**, Fraseri, two feet high; small white flowers, showy, good for cutting.

**Euphorbia**, variegata, Snow on the Mountain; two feet; white and green foliage when in bloom.

**Gaillardia**, Mexican Fire Plant; red foliage when in bloom.

**Eucalyptus**, low-growing annuals, showy in masses; flowers rich blue, white and rose; mixed.

**Fuchsia**, diminutiva, a pretty little hardy annual from California, exquisite pink bloom in masses. The plants like a sandy soil and sheltered situation.

**Gaura**, Lindheimeri, two feet high; rosy white flowers, pretty but evanescent.

**Gilia**, annuals from California. Grow one foot high, bearing attractive flowers in profusion. If sown in September the plants bloom early the next season and keep in bloom till hot weather. May be sown where the plants are to bloom, or the plants may be transplanted.

**Gilia**, Alba, white.

**Gilia**, California, blue.

**Gilia**, Capitata, blue.

**Gilia**, Linifolia, white.

**Gilia**, Minima, white.

**Gilia**, Nivalis, white.

**Gilia**, Tricolor, white.

**Gilia**, Fine mixed, 4 pkts. 10c; pkt. 3.

**Glycine**, silver-leaved plant; flowers yellow; useful for winter foliage beds south; mixed.

**Gymnanthes**, gentianoides, a charming little succulent annual; orange red flowers in profusion.
Helianthus fistulosus, the finest of all Sunflowers.

Machine Packed, 3 cents per pkt. 4 pkts for 10 cents.

The Double Green-centered Sunflower, Helianthus globosus fistulosus, is decidedly the finest of the Sunflowers. The plants grow from seven to ten feet high in good soil, branch like a tree, and are heavily laden with enormous, perfectly double, golden-yellow flowers throughout the autumn. There is not a more showy and attractive large garden flower than this grand Sunflower. For a corner in the background, for planting among shrubbery, or for a hedge or screen or group this Sunflower invariably gives great satisfaction. Set the plants from two and a half to three feet apart. A group of plants of this tall, large-leaved Sunflower may be bordered with a dwarf double-flowered variety, and will make a fine effect.

Hibiscus Africanus, Flower-of-an-hour; rather coarse, but easily grown annual; cream-colored.

Hymenocallis fumaricioa, a Mexican plant; two feet high, glaucous foliage, orange flowers.

Impatiens glandulifera, rather showy annuals, four to six feet high; look well among dwarf shrubbery; showy red flowers.

Ice Plant (Mesembryanthemum), a pretty succulent basket or pot plant with icy foliage.

The Beautiful Lavatera trisemtris.

Choice mixture, all colors, 3 cts. per pkt., 4 pkts. 10 cts.

This is a beautiful and showy annual of the Mallow family, found native in Spain. It is easily grown from seeds, blooms quickly and continuously, and will grow in any sunny position. In general appearance the flowers are not unlike a small single Hollyhock, but more cup-shaped and delicate, shining with a sati-

Lavatera trisemtris rubra, red.

Alba, white.

Rosea, rose.

Special mixture of all colors, packed by our steam-power packers, 3 cents per packet, 4 packets.

Mr. Park:—We have a plant of Lavatera trimetricis which attracts everyone by its beauty. It is unequalled for bouquets, as the blossoms are on long stems and last well.

Larkspur, annuals and perennials (see Delphinium). Complete mixture.

Lagurus elegans, a dwarf, compact annual; flowers yellow, shading to white; pretty.

Leptosiphon, beautiful and profuse-blooming annuals from California; rose, white, yellow, blue, etc. separate or mixed.

Leposyne maritima, a dwarf annual bearing an abundance of yellow, Callipetalus-like flowers.

Lewanthemum maximum, the Ox-Eye Daisy.

Limnanthes Douglasii, a prostrate, hardy annual; flowers yellow shading to white.

Linum grandiflorum, Scarlet Flax; showy and pretty garden plants; perennial South; mixed.
NEW BASKET LOBELIA—Barnard’s Perpetual.

3 cents per packet, four packets for 10 cents.

Several new Lobelias have been introduced lately, but the brightest, most free-blooming and most desirable of them all is Barnard’s Perpetual. Plants are easily raised from seeds, and begin to bloom early. Each plant stools out, spreads, and becomes a mass of foliage and flowers, the individual flowers being very large, of the richest blue imaginable with distinct white eye, and borne in great profusion. As its name indicates, the plant is perpetual in its blooming character, and if the branches are pinched or the flowers freely cut the display will be kept up continuously. As a basket or pot plant it is exceedingly desirable, while an edging or carpet bed of blue in our Northern States it is almost unsurpassed. Though a valuable novelty I have secured a fine lot of the seeds, which, packed inexpensively by our steam-power packers, I can sell at 3 cents per packet, or four packets for 10 cents.

New Dwarf Dahlia-flowered African Marigolds.

**Price, mixed colors, 3 cents per pkt., 4 pkts. for 10 cents.**

These New Marigolds have become very popular, and the demand for them is greater than for all other Marigolds combined. The flowers are very large, as double as a double Dahlia. The plants in habit are dwarf and compact, and for a low hedge or border are excellent. Don’t forget to include a packet of these splendid Marigolds in your order this spring.

**Lovely New Duplex Basket Mimulus.**

*Per packet 3 cents, four packets 10 cents.*

It is a pleasure to offer such an exquisitely beautiful basket and pot plant as this Mimulus. It is of easy culture, the plants start readily, bloom early, and continue in bloom a long time. A plant in bloom is well represented in the engraving. Given partial shade, it is a charming basket, vase or pot plant.

**OTHER CHOICE KINDS OF MIMULUS.**

- Albus, white
- Cardinalis grandiflorus
- Roseus superbos
- Cupreus, brilliant
- Prince Bismark
- Nobilis duplex, double
- Rubra maculata

Complete special mixture of all varieties, put up by our steam-packers, four packets for 10 cents, per packet...

---

**Exquisite New Sorts of Mignonette.**

*Finest mixture, 3 cts. per pkt., 4 pkts. 10 cts.*

Pumila erecta. This elegant dwarf Mignonette is of compact habit, and very floriferous, while the flowers are exceedingly fragrant. It is the best of all for pot culture, or for a low edging or border; four packets 10 cents, one packet 3 cents.

Golden Queen, a beautiful, vigorous sort with large spikes of yellow bloom; a grand variety; four packets 10 cents, one packet 3 cents.

**OTHER VARIETIES.**

- Victoria, red, showy and beautiful
- Miles' Spiral, compact, large, sweet
- Matchet, a fine variety for pots
- Giant Pyramidal, of robust habit
- Crimson Queen, fine dark red
- Grandiflora, large-flowered
- Common Sweet, ex. 10 cents, per packet
- Complete mixture, steam-packed, 4 pkts. 10c, per pkt.

---

**Matthiola** biennis, sweet-scented Evening Stock, not showy, but delightfully fragrant
**Malope**, a malaccous hardy perennial, bearing showy white, rose and purple flowers; mixed
**Medicago**, annuals with curious seed-vessels, as snails, spirals, etc; separate or mixed
**Moluccella**, Shell-flower; two varieties mixed

**Mirabilis**, Four-o’clock, beautiful, showy, fragrant flowers; tall sorts, separate or mixed
The same with variegated foliage
Dwarf sorts mixed
Longiflora, long, sweet flowers
Multiflora, perennial, free-flowering
Complete mixture of all varieties
Charming Large-flowered Forget-me-nots.

**Finest mixture, 3 cents per pkt., 4 pkts. for 10 cents.**

It is to be regretted that the Forget-me-not (Myosotis) is better known in poetry than in our gardens. This is due, perhaps, partly to the usual high price of the seeds of the choice kinds, and partly to a lack of knowledge of their culture. Seedling plants are easily started, and if in a cool, partially shaded nook the plants will soon become a mass of exquisite bloom. Drought and the hot sun often injure and destroy the plants. The best success is found by sowing the seeds in a sheltered bed in August. The plants will bloom the next spring, and prove the most attractive and charming of flowers.

I ask special attention to the New Victoria Myosotis, a plant of which is shown in the engraving. This grand class of Forget-me-nots cannot be surpassed. The plants are robust, and of the easiest culture, while the flowers are very large, produced in great clusters, and are of a charming shade of white, red and blue. I heartily recommend this class. 

**Myosotis, New Victoria, white, rose and blue, each per packet.**

Special mixture of all colors, put up by our steam packers, four packets for 10 cents, one packet.

**OTHER VARIETIES.**

**Pratia, blue,** 5
**Alba, white,** 5
**Celedania,** 5

**Minuscula pudica,** Sensitive Plant with acacia-like foliage; wilts when touched.

**Nemophila,** pretty hardy annuals from California; 6 inches high; delicate, showy, cup-shaped flowers of many colors. Sow in spring or fall. Sixteen varieties, separate or mixed.

**Nemesia,** annuals from the Cape of Good Hope; 10 inches high, with spikes of Linaria-like flowers, in many colors; very showy and fragrant.

**Nigella,** hardy annuals, own fall or spring; very pretty blue and white flowers; mixed varieties.

**Nierembergia,** very profuse flowering, showy small white and pink flowers, for beds or rock gardens.

**Nicotiana affinis,** a beautiful half-hardy perennial; begins to bloom early from seeds, and blooms continuously, flowers star-shaped, white and very fragrant.

Six other sorts, separate or mixed.

**Volucella,** pretty hardy annuals, useful for rockwork, vases and baskets. Colors blue, white and violet, separate or mixed.

**Viginti,** the twenty, pretty half-hardy annuals, useful grown in mass; flowers in large clusters, very fragrant.

**Obelia,** hardy perennials; flowers yellow with dark, one-like center; mixed.

**Gnothera,** the Evening Primrose, mostly hardy biennial, in which the showy yellow flowers opening in the evening. Some are dwarf, others tall. Seven best varieties, separate or mixed.

**Oxalis,** the Oxalis, a lovely, charming, clover-like plant for pots and baskets; colors white, red and yellow; seven best sorts; separate or mixed.

**Oxypetalum,** hardy annuals, either for borders; one foot high; flowers Aster-like, yellow, freely produced.

**Pallenis,** a Brilliants, a medium annual, 1 foot high, bearing loose clusters of pink flowers; good for masses; sow where plants are to bloom true.

**Paeonia,** a mallow-like plant; foot high, bearing rose-purple flowers an inch across.

**Parsley,** Double-curl Edging, a fine dwarf foliage plant for edgings; retains its rich green color the entire season; useful also for culinary use...

**Poppy (Papaver).** Those here offered are hardy annuals, the flowers rich in color and very showy. Sow where the plants are to bloom, either in September or early spring.

**Paeonia-flowered,** very large double flowers, showy as a Peony; 12 colors, separate or mixed.

**Rhazes Fl.,** an elegant dwarf sort with fine double flowers; fine for beds; splendid colors mixed.

**Shirley,** a single-flowered kind of great beauty, selected from the Rhazes Poppy.

**Sommiferum,** double Opium Poppy, 12 colors, separate or mixed.

**Carnation-flowered,** very hardy and showy.

**Ten other leading kinds, separate.**

Complete mixture of all varieties, specially prepared and packed on our steam-power packers.

**Perilla,** ornamental-leaved plants, crimped and fringed, and of a peculiar shade of red or brown, used for beds.

**Polygamous,** orientale, an old-fashioned annual, 10 feet high, with long, drooping clusters of carmine flowers; showy and pretty among shrubbery or for a background.

**Phacelia,** annuals with pretty foliage and handsome blue flowers; look well massed together.

**Physalis**, alkekengi, a perennial resembling the common ground cherry; but the inflated calyx covering the berry is scarlet; much admired.

**Podolepis,** yellow-flowered annuals from New Holland; 1 foot high; bloom throughout autumn.

**Portulaca,** very beautiful and useful summer-blooming annuals; flowers large and brilliant, of rich colors; fine for beds as they make a gorgeous display and endure the hot sun.

**Doubie Rose-Flowered.**

**White striped.** 5
**Yellow striped.** 5
**Rose colored.** 5
**Red striped.** 5
**Blue striped.** 5

Double rose-flowered sorts mixed, put up by steam-power packers, four packets for 10 cents, packet.

Single-flowered varieties, separate, per packet.

Single varieties mixed, 4 packets, 10 cts., per packet.
The Pansy is a favorite flower everywhere, and great pains have been taken by florists to improve it in the size, form, color and variegation of the flowers, and in the vigor, compactness and free-blooming habit of the plants. Those now grown are almost perfection in all these points, and much superior to the older varieties. The plants are easily grown, begin to bloom early, and continue throughout the season. The cool weather of autumn only improves the size and richness of the flowers, and if snow falls while the plants are in bloom they will retain their beauty while winter lasts, and may be taken from their snowy bed at any time. A partially shaded bed and deep, moist soil suits them. In the South great success may be had by sowing the seeds in a sheltered bed in September. The plants will then begin to bloom in late autumn, and continue in bloom throughout the winter and until hot weather comes. At the North young plants may be planted in a sheltered bed excavated a foot and covered with a glass sash during cold weather, and further protected by a mat or old carpet during severe weather. Plants thus grown will often bloom well throughout the coldest months.

The wonderful size, richness and beauty of Park’s Giant Pansies prompt me to offer this superior strain at the popular price of 3 cents per packet or four packets for 10 cents. No lover of Pansies cares to buy anything but the best, and although this price seems ridiculously low for first-class seeds, it is nevertheless true that with the steam packing machines the expenses are so reduced that I can sell the best seeds to be obtained at an almost nominal price, and still have a margin of profit, even though a very small one. All I ask is that you test these Pansies along with those offered at a high price by other seedsmen. You will find Park’s Giant Pansies up to the standard in every particular.

Besides the above I can supply about 40 varieties, embracing every shade and color.

Mr. Park—Out of a packet of 205 Pansy seed, purchased from you, I raised 198 fine, thrifty plants. They grew splendidly, and produced a wealth of bloom, the beauty of which attracted admiration and praise from all who saw them. They were certainly lovely.—Lizzie D. Smith, So. Fitchburg, Mass.
NEW MAMMOTH-FLOWERED SINGLE PETUNIAS.
Superb special mixture, machine-packed, per pkt. 3 cts., 4 pkts. 10 cts.

For bedding the Petunia is without a rival among plants usually grown from seeds. Plants are readily started from seeds, and soon come into bloom, and if set 18 inches apart in a bed they will form a mass of bright color and continue in beauty till after severe frosts. Not only are the flowers attractive and pleasing to the eye, but they make the evening air redolent with rich perfume. Cut freely to prevent the formation of seeds, and the display will be brighter and more lasting. The New Mammoth-flowered varieties are enormous in size and gorgeous in coloring, but produce few seeds, and the seeds are usually held at a high price. I am pleased to say, however, that I have secured a fine lot of seeds of a Petunia specialist, and what I supply, even at the low price named, will produce flowers unequalled in size and form and in brilliancy and variety. They will compare with any strain, no matter how loud the praise, or how high the price.

PLAIN MAMMOTH-FLOWERED SINGLE PETUNIAS.
Alba, white, very fine .......................... 10
Brilliant Rose, showy ................................ 10
Clematis-dowered, very large open flowers, steel blue, handsomely veined ............... 10
Dark Blood Red .................................................. 10
Inimitable, variegated .............................................. 10

FRINGED MAMMOTH-FLOWERED SINGLE PETUNIAS.
Maculata, immense flowers, striped and blotched and exquisitely fringed .................................................. 10
Titania, rich velvety purple margined with a broad white band .................................................. 10

Complete Special Mixture, Plain and Fringed Mammoth-flowered Single, four pkts 10 cents, one packet 3

Medium-flowered Petunias.
Superb varieties for beds or pots, compact in habit and very floriferous. Sure winter-bloomers for a sunny window. Belle Etoile, richly striped flowers ............... 5
Carminea intus alba, red, white throat .................................. 5
Inimitable, fine; stelliform blotches .................................. 5
Marginala, green bordered .................................. 5
Reticulata, various colors, richly veined .................................. 5
General Dodds, darkest red, rich and dale .................................. 5
Special mixture, 4 packets 10 cts., packet 5

DOUBLE PETUNIAS.
Complete mixture, best quality, 4 pkts 10 cts., per pkt 2 cts.

The seeds I offer of these are unsurpassed, having been saved only from carefully hybridized flowers of the finest varieties.

Double Blotched and Striped, rich colors 10
Fringed, white .................................................. 10
Veined .................................................. 10
Brilliant Rose .................................................. 10
Violet .................................................. 10
Robust-growing .................................................. 10
Variegated .................................................. 10
Liliput, fine for pots, see engraving .................................. 10

Complete mixture of all the above choice Double Petunias, finest quality, four packets 10 cents, per packet, 20 seeds 3
NEW GENTIAN-LIKE HYBRID PENTSTEMONS.

Complete mixture, machine packed, four packets 10 cents, per packet 3 cents.

The New Hybrid Pentstemons have lately attracted much attention on account of their large, showy flowers, and the rich, new and varied colors which they exhibit. The various shades of white, red and blue are well represented. Seedling plants come into bloom the first season, endure the winter, and do service for several years. These fine Pentstemons are all perfectly hardy in the South, but in the northern States they need protection. Place a board frame around the bed, and in December fill with pine boughs and cover with boards to turn the rain. Start seeds early to bloom the first season. I can supply the seeds as follows:

- Dark Red and Scarlet shades, mixed
- White and light-colored shades, mixed
- Blue and violet shades, mixed
- Complete mixture of all colors and shades, machine packed, four packets 10 cents, one packet

"The Hybrid Pentstemons are among the gayest of summer flowers. They are, as a rule, possessed of good habit and constitution, and always figure among the most striking plants in those gardens where justice is done them. They may be propagated from either seeds or cuttings."—E. J., in Garden.

GRASSHOFF'S NEW CUSPIDATE PHLOXES.

Choice mixture, machine packed, per pkt. 3 cents., 4 pkts. 10 cents.

Several years ago Martin Grasshoff, a German florist, introduced an entirely new form of Phlox Drummondii, each flower showing a fringed margin with long, pointed cusps or teeth here and there, as represented in the accompanying engraving. At first only two or three colors were represented, but others have been added from time to time until to-day we have all the colors, and what is more, the flowers have been greatly improved in size and markings. The plants, set six inches apart, and the tops pinched out when young, will branch and soon show a dense mass of rich color, the blooming season continuing from June till after severe frosts. I have secured a full stock of seeds of this grand Phlox direct from the originator, and offer the following colors:

- Red...
- Red marbled...
- Pure white...
- Purple...
- Salmon-red...
- Violet-red...
- Blue
- Scarlet
- Blue marbled
- Rose
- Violet, white eye
- Crimson

New Large-flowered, 30 named varieties, separate, per pkt. 5 cts.; special mixture of same, 4 pts. 10 cts., pkt.
New Double Phlox, scarlet, purple, white, light yellow, etc., separate or mixed, per packet.

Complete special mixture, including Cuspidate, Large-flowered and Double, all varieties, carefully proportioned, packed by our steam-power machines, four packets for 10 cents, per packet.

THE NEW ZANZIBAR RICINUS.

Mixed, four packets 10 cents, per packet 3 cents.

Among the new and showy semi-tropical foliage plants we have Ricinus Zanzibariensis, plants which make a robust growth of ten feet high, with enormous leaves and conspicuous panicles of bloom and fruit. The following varieties can be supplied:

- Greenleafs...
- Negle...
- Eormics...
- Maculatus...
- Picturatus...
- Variabilis...

Special mixture of the varieties, four packets 10 cents, one packet.

Mr. Park—Ricinus Zanzibariensis is a fine foliage plant. Planted singly or in groups the effect is grand. In rich soil and given good cultivation the plants often attain the height of twelve feet in a single season, and the leaves are sometimes four feet long. The flowers are comparatively small, and the seeds are red. Some of the plants produce light green leaves with whitish ribs, and these form a superb contrast with the dark foliage of the other sorts when the different varieties are planted together.—Mrs. S. H. Snider, Napiika, Manitoba.
Superb Double Ten Week's Stocks.

Complete mixture, all varieties, 3 cents per packet, 4 packets 10 cents.

The Ten Weeks' Stock is one of the finest annuals in cultivation when well grown. The flowers are perfectly double, graceful in form, showy yet delicate, and yield a delicious odor. The seeds germinate in about five days, and the young plants grow rapidly, coming into bloom in mid-summer, and from that time until severe frosts they bloom abundantly. Give rich soil and good cultivation. Our seeds were saved only from pot-plants, and will produce a large percentage of double-flowering plants.

**DWARF LARGE-FLOWERED.**

This is one of the best varieties in cultivation. Plants grow one foot high and produce large, rich, fragrant flowers in great abundance.

- Bright Rose
- Pure white
- Light blue
- Ash grey
- Carmine
- Brown
- Purple
- Scarlet
- Aurora
- Dark blood red, deepest colored Stock known
- Violet
- Carmine purple, fine
- Brilliant copper color
- All the above mixed

**OTHER VARIETIES.**

Dwarf German, profuse-blooming; many rich colors, pot seed.

- Wallflower-leaved, shining leaves, dwarf; rich colors, mixed.
- Pyramidal Celestial Blue, new shade.
- Cape Giant or Treecock
- Early Autumn-flowering, fine for windows
- Pyramidal Large flowering Dwarf, pyramid-growth, immense spikes, mixed.
- New Dwarf Queen, dark blood red, very rich.
- New Snowflake, pure white, for pots; early
- New Giant Perfection, 2½ feet high, pyramidal in form, large spikes of double flowers; 12 varieties, separate or mixed.

**Special mixture of all varieties and colors,** four packets for 10 cents, per packet.

**Sanctivis** procumbens fl. pl., a trailing or edging plant, double yellow flowers in profusion.

**Seabiosa,** New Large-flowered. Splendid ever-blooming garden plants. The flowers, which are delicate and very showy, are produced on long stems, and are valuable for cutting. Started in summer they bloom well in the window in winter. The new large-flowered sorts are very fine. I can supply the following sorts, an

- Purple
- Blood red
- Pure white
- Rose white
- Lilac
- Black purple
- With white
- Cherry and white
- White and lilac
- Golden Yellow
- The above mixed
- Double Tall, mixed
- Double Dwarf, mixed
- Candidissima
- Complete mixture, 4 packets 10 cents, per packet.

**Salvia** splendens, Scarlet sage, fine for beds.

**Patens, blue, large, rich flowers.**

**Sclarea, mixture.**

**Saponaria** Calabraca compacta, a handsome edging; sow in fall; blooms profusely; red, white and rose, separate or mixed.

**Scarlet Queen, a rich edging.**

**Gymnaland, a lovely perennial for edging; becomes a mass of pink.**

**Special mixture of all sorts.**

**Schizagetae** Walkeri, an annual, 1 foot high, fringed, fragrant flowers; sort where the plants are to bloom.

**Sedum** ocellare, Stone Crop, a neat little annual for rockeries; pale blue flowers in clusters.

**Shortia** Californica, hardy annual with daisy-like yellow flowers; useful for drying.

**Silene** pendula fl. pl., charming annuals for edgings; double flowers; rose, white or red; sow in early autumn or early spring; separate or mixed.

**Solanum** capsicastrum, Jerusalem Cherry.

**Ciliatum, large, vermillion fruit.**

**Rusticum, fine for foliage.**

**Lacinatium, mauve flowers.**

**Solanum** capsicastrum is a fine ornamental window plant when well set with fruit. S. laciniatum and S. robustum are useful foliage plants for the lawn. S. ciliatum may be used for either window or gardens.

**Sphenogyne** speciosa, a Mexican daisy; yellow with brown disc.
ELEGANT LARGE-FLOWERED SALPIGLOSSIS.

Special mixture; all colors, 3 cents per pkt., four pkts. 10 cents.

Have you ever seen a mass of bloom of the New Large-flowered Salpiglossis? If not, do not fail to get seeds of this superb flower this season. The plants grow two feet high, bloom continuously during autumn, and bear large, funnel-shaped flowers, rich in texture, with ground colors of yellow, royal purple, carmine, violet, scarlet, white, etc., all pencilled with gold, purple or brown in the most attractive manner. The plants are easily raised from seeds, and bloom with great freedom. The seeds I offer are of a very superior strain. This superb annual should be one of the “must haves” when you make up your order. The varieties are:

SPLENDID DWARF TROPHEOLUMS-NASTURTIUMS.

Popular and beautiful plants for beds, as they bloom continuously, bearing a great abundance of large, brilliant-colored, fragrant flowers throughout the season. They are of easy culture. Sow where the plants are to bloom; or, they may be transplanted from the seed-box. The collection I offer is choice, and contains only the brightest and most distinct kinds. The

*Pearl, creamy white. 5
*Crystal Palace Gem, white with maroon eye. 5
*Luteum, pure yellow. 5
*Crucigera, maroon spot. 5
*Coruleum roseum, rosy. 5
*Beauty, pale orange scarlet. 5
*Coccinea, fiery scarlet. 5
Complete mixture, all colors, 15 cents per ounce, per packet. 3

*Those marked with an asterisk are best for bedding.

NEW COMPACT LARGE-FLOWERED VERBENAS.

Special mixture, 3 cents per packet, four packets 10 cents.

These new Verbenas surpass the older varieties in the compact habit of the plants, making them more desirable for either pots or beds and also in the size of the flowers and freedom of the clusters, making them more showy and attractive. Most of them are deliciously fragrant. They come into bloom early from seeds, and are charming objects of the summer garden, as well as satisfactory winter-blooming pot plants in a window with southern exposure. I can supply these choice varieties to name:

*Cuprea, pure coppery red. 5
*Candidum, white. 5
*Delance, rich scarlet. 5
*Atrosanguinea, dark crimson. 5
*Coccinea, rich scarlet. 5
*Carminata, maroon. 5
*Stellata, red with eye. 5
*Violacea, violet blue. 5
*Violacea, stellata, star. 5
*Rosa, fine, rose pink. 5
*These are all my Verbena seeds were carefully saved from the finest selected plants. There are none better to be had.

Pentas, fuchs, showy perennial, yellow flowers. 5
Viola rosea, fine plants for beds South, and for the window-garden North; white, rose and rose-eyed, separate or mixed. 5
Verbascum ocellata, annuals, a foot high, with rich purple flowers of white, rose, blue, crimson, etc. for beds; separate or mixed. 3
Viola Stock, charming annuals; white, crimson, red, yellow, etc. separate or mixed. 3
Whitlavia grandiflora, a pretty little annual; flowers bell-shaped, white or blue, separate or mixed. 3

Violets, English Bedding (Hybrides). Beautiful Pansey-like flowers, rich in color, fragrant, and produced freely throughout the season. The plants are easily grown from seeds, are hardy, and come into bloom early the next season. They like a cool, moist soil, and flourish with the same treatment given the Pansy. They are much used in Great Britain for bedding. Sometimes known as Tutfed Pansies. Nine varieties, including pure white, shades of yellow, red and purple, separate, per packet. 5
Fine mixture of all varieties. 3
New Semi-Dwarf Double Zinnias.

Zinnia elegans pumila fl. pl., finest mixture, per packet 3 cents, four packets 10 cents.

I take pleasure in offering a splendid collection of the New Semi-dwarf Double Zinnias. These superb annuals grow from a foot to eighteen inches high, starting readily from seed, and blooming abundantly from early summer till cut down by frosts. Set the plants a foot apart in the bed, and you will have a mass of rich bloom that will attract much attention and admiration. The plants do not mind the hot sun, and will bear drought well. This new strain is of surpassing excellence for beds or borders, and will make a gorgeous show, rivaling that of any other bedding plant. I can supply the leading colors separately. The mixture is carefully prepared and contains all the colors. My seeds were saved only from selected plants, and will yield flowers as double as Dahlias, and almost as large.

Everlastings and Grasses.

These retain their form and color for years if cut just as the buds are beginning to open, hung in the shade and dried. They are fine for bouquets and floral designs in the winter. All are easily grown from seeds.

**Ageratum**, graceful and pretty half hardy annual; flowers nodding, an inch across, mostly rose and white, and for drying should be cut before expanding. Plants, slender, with Linum foliage, a foot high, and pretty either in beds or pots.

| Single rose | 5  |
| Double rose | 5  |
| All varieties, single and double, mixed | 5  |

**Gomphrena globosa**, a very fine annual, very desirable as a bedding plant, making a gorgeous and continuous display. Colors white, carmine, flesh color and variegated. The dwarf varieties are fine for pots. Cut when fully developed. Gomphrena auris bears orange flowers. The colors, separate or mixed.

Complete mixture, four pkts. 10 cents, per packet.
ORNAMENTAL CLIMBERS.

These are desirable for covering walls, trellises and summer houses, and for hiding old fences stumps, or unsightly buildings. They are very tractable, and can be trained into almost any form desired. Furnish support as soon as the plants show a disposition to run.

The Beautiful
Cobea scandens

Price 3 cents per packet, 4 packets 10 cents.

From Mexico we have the beautiful Cobea scandens, a strong, vigorous climber easily grown from seeds, and reaching the height of twenty to thirty feet in one season. The foliage is dense and handsome, each leaf ending in a delicate tendril, and accompanied in autumn by a large, showy, purple bell supported by a long, graceful stem issuing from the leaf-axil. Plant the seeds edgeways, and water sparingly till the plants appear. Do not let the plants become crowded in the seed bed, or they may damp off. They thrive against a sunny wall, and become a mass of foliage and bloom in autumn. Price 3 cents per packet, 4 packets 10 cents.

Mr. Park—I find that Cobea scandens is a very rapid grower. Last spring a friend of mine planted two Cobea at her verandas, one at each pillar, and placed woven wire for them to run on. They now cover the whole front, and the display is something beautiful to behold. —Mrs. M. E. A., Harford Co., Md., Sep. 15, 1896.

SUPERB LARGE-FLOWELED MORNING GLORIES.

Special mixture, machine packed, 3 cents per packet, 4 packets 10 cents.

The Improved Old-fashioned Morning Glories are somewhat eclipsed by the New Japanese varieties, but are, nevertheless, worthy of our attention, as the flowers are large, showy, and of many rich colors, while the plants grow vigorously and bloom profusely. I can supply the following in special mixture, or separately as desired. The mixture is carefully prepared, and contains seeds of all the colors. The new shades cannot fail to please those who have this beautiful old-fashioned flower, and the seeds I offer are fresh, and will produce an abundant crop of flowers. [For Japanese Imperial Morning Glories see page 31.]

| Pure white                      | 3 Light blue             | 3 Mauve                  |
| Rose, red                      | 3 Black Blue             |                        |
| Carnation                     |                          | 3 Michael's red         |
| White striped rose            | 3 White striped violet   |                        |
| Dark red                      | Complete mixture         |                         |

| Centrosema grandiflora (Virginiana). A perennlal vine, common in the South. Bears large pea-shaped flowers, delicate in texture, and of an exquisite lavender color. It blooms freely during the autumn, and the flowers are said to be fragrant, but the fragrance is not very pronounced. It belongs to the leguminous family, and the seeds start readily if soaked in hot water for a few hours before sowing. In the South, where this vine is native, it forms the banks in some places, and displays a mass of bloom. I have obtained a fine lot of the seeds, which have been very high-priced heretofore, and will sell them at my popular prices, 3 cents per packet, 4 packets for 10 cents. At this price no one can afford to omit this from their order. It is a vine that is well worth cultivating. |

Calampelis scabra, a half-hardy evergreen vine with racemes of scarlet flowers. Six to eight feet high. Start early. Bloom in fall. In mild climates it is hardy and will bloom for many years, but at the North the roots must be preserved like those of the Dahlia. Very pretty and showy for a trellis. |

Cardiospermum halicacabum, the balloon vine; very pretty foliage and balloon-like seed-vessels. |

Cypress Vine, a delicate vine with finely-cut, dark green foliage and small, rich-colored flowers in profusion. Grows ten feet high and is lovely for a trellis. Colors, scarlet, rose and white, separate or mixed. |

Dolichos lablab, a leguminous vine grows rapidly and bears clusters of white or purple flowers; colors, separate or mixed. |

Clintonia, a leguminous vine bearing red, rich and handsome flowers of various colors. Grows six feet high. Soak seeds before sowing. Six colors, separate or mixed.
Gourds and Cucumbers.

Special mixture, per packet 3 cents, 4 packets 10 cents.

Many of these are very ornamental. The Giant Gourds are coarse in growth and have enormous flowers, and fruits that are useful for pies. Bryonopsis laciniosa has delicate, laciniated foliage, and a profusion of small, speckled fruit in autumn, red when ripe. It is a rapid grower. Many are curious. Cyclanthera and Momordica burst when ripe. Some are used for dippers, some for nest-eggs, some for children's plays, while the vines are useful as climbers. All are easily grown. Our special mixture contains seeds of a great variety, each packet specially prepared. It will certainly please you.

Giant Gourds, Yellow, Scarlet, Green, Gray and Orange, separate or special mixed.

New Japanese Variegated Hop.

Price, 3 cents per packet, 4 packets 10 cents.

A lovely foliage vine starting readily from seeds, which should be sown early where the plants are to stand. It grows very rapidly, and produces a wealth of attractive foliage, each leaf distinctly bicolored with pinkish-scarlet and white. For the pillars of the veranda or for trellises or summer houses this vine is very desirable, and far surpasses the older, green-leaved sort. A hardy annual, branching freely, and will climb to the height of thirty feet in one season. The seeds I offer are fresh, and are put up by our new rapid steam-power packing machines. Price, 3 cents per packet, 4 packets 10 cents.

SCARLET HYBRID PASSION VINE.

Price, 3 cents per packet, 4 packets 10 cents.

In California one of the most beautiful and popular of vines for covering summer houses and arbors is a Hybrid Passion Vine with pinkish-scarlet flowers in racemes. It is beautiful beyond description, the flowers being large, well-formed, rich in color, and borne in long racemes in wondrous profusion. The plant is a perennial, rapid in growth, and will climb to the tops of high trees, forming a mass of rich foliage and gorgeous bloom in autumn. In California and the South it is entirely hardy, but should have winter protection in cold climates. This lovely vine is thought to have been introduced on the Pacific coast by the early Spanish missionaries who fancied the bloom resembled the cross and crown. It is certainly a good vine for the South, and may do well with protection at the North. Fine fresh seeds, machine packed, 3 cents per packet, 4 packets 10 cents.

Ipomea. Very free-blooming and vigorous vines. I. coccinea grows rapidly to a height of thirty feet, and bears a profusion of Cypress-like flowers. I. llimbata elegantisima has very large, exquisite light blue flowers with distinct white margins. All are large-grown bold seeds. I can supply fresh seeds of the following sorts:

Coccinea, mixed colors.................. 3
Hedencia, mixed colors.................. 3
Heavenly Blue, very fine.................. 5
Leari, blue.................. 5
Limbata elegantisima.................. 5
Limbata variegata.................. 5
Limbata laciniosa.................. 5
Violaacea vera.................. 5
Alba, white.................. 6
Special mixture, taining all the above in careful proportion.................. 6

Lophospermum scandens, a beautiful climber, with hoary, graceful foliage, and large, mauve, dia-like pink flowers. Easily raised from seeds, which should be sown early to bloom in autumn. In winter the large, fleshy roots may be preserved in the cellar, or they may be grown as a window trellis plant. Per packet.................. 10
Coccinea, scarlet, fine.................. 10
Special mixture.................. 10

Mina lobata. Of all the vines recently introduced this is one of the finest for out-door culture. The growth is exceedingly vigorous, the foliage beautiful and dense, and the flowers borne in great profusion. Start the seeds in a window box or hot-bed early in March, and give the plants a good start for transplanting. I would urge a trial of this new and beautiful vine.................. 5
Park's Large-flowered Sweet Peas.

Complete mixture, per lb. 30 cts., one-fourth lb. 10 cts., one ounce 4 cts., per pkt. 3 cts., 4 pkts. 10 cts. Separate, mostly 8 cts. per ounce.

Sweet Peas have become very popular lately, and they well deserve their popularity, possessing as they do, all the elements of a complete flower—graceful form, rich and varied colors, delicate texture, and delicious fragrance, while the plants are as easily grown as garden Peas, bloom profusely, and make an elegant hedge or trellis. Many new varieties have been introduced, and the old ones improved. I offer the best of the new as well as old, at prices marvellously low, and hope all of my patrons will sow at least an ounce of the seeds this season. Following are the varieties in stock:

Complete mixture, per lb. 30 cts, ½ lb. 10 cts, 1 ounce 4 cts, 4 packets 10 cents, per packet.

Elegant Climbing Tropaeolums.

Special mixture, 12 cts. per ounce, 3 cts. per packet, 4 packets 10 cts.

Surpassing even the Sweet Peas in richness, delicacy and fragrance we have the varieties of Tropaeolum majus or climbing Nasturtium. These, too, are of easy culture, will grow almost anywhere, and bloom continuously all summer. I have all the colors, some of which are peculiar, and all exceedingly rich. I offer the best quality of seeds, my own special mixture, in which the varieties are carefully proportioned, at 12 cents per ounce, 3 cents per packet, or four packets for 10 cents.

**TROPAEOLUM PEREGRINUM.**

Tropaeolum peregrinum, the Canary-bird Flower, a lovely rapid-growing vine, useful for covering walls, windows or trellis; coarse, elegant foliage and charming bird-like yellow flowers in wonderful profusion; easily grown. Price, 3 cents per packet, 4 packets 10 cents.

Tibouchina alata, buff, dark eye; handsome. Five other varieties, separate or mixed.
BIENNIALS AND PERENNIALS.

I offer fresh seeds of all the leading Biennials and Perennials. The Biennials, as Bellflowers, Foxtail, Verbascum, etc., bloom the second season, then die; the Perennials bloom the second season and for many years afterward, improving in beauty each year. They are often called the poor man's flowers, as they require but little care, and always make a fine garden display. All are easily grown from seeds. Do not fail to sow a few seeds of this class, and establish a bed this season.

Carnations, Pinks and Picotees

Finest mixture, machine packed, 3 cts. per packet, 4 packets 10 cts.

At the head of the list of Perennials should stand the beautiful hardy Carnations, Pinks and Picotees. They are as easily grown from seeds as an Onion, and if started in the spring and set out in early summer, so the plants may get well established, they will endure the winter without protection. Grown in a bed or border the plants form a "scod" of silvery green foliage, above which the great masses of brilliant flowers wave in the breeze and make the surrounding air redolent with delicious perfume. I offer a mixture of these flowers from the finest double strains, and packed by our steam-power packers. These seeds will certainly please all who sow them. Price 3 cents per packet, 4 packets 10 cents.

Carnation, finest double, for beds and borders, mixed. 10
Grenadin fl. pl., compact, very beautiful, mixed colors. 10

Chater’s Superb Hollyhocks.

Benary’s Prize Strain, Unsurpassed.

Finest special mixture, 3 cents per packet, 4 packets 10 cents.

Among the most showy and beautiful of garden flowers are the Double Hollyhocks, and the finest strain of Double Hollyhocks is Chater’s Strain, the flowers of which are of enormous size and full double to the center, while they show all the exquisite new colors. As the plants do not become exhausted by seeding, they bloom for a long time, bearing crop after crop throughout the season. Nothing makes a grander hedge or screen than these Hollyhocks. When in bloom they are gorgeous. Started early the seedlings will bloom in the autumn, but usually it is better to sow later and not expect bloom until the second season. When through blooming in autumn the stalks off, and cover the roots with evergreen boughs till spring. They will then bloom well another year. Following are the colors, furnished separately, if desired:

All the above in splendid mixture, packed by our steam-power packers, 4 packets 10 cents, per packet.

Choice Large-flowered Sweet Williams

Choice mixture, pkt. 3 cents, 4 pkts. 10 cents.

The Sweet William is an old-fashioned flower, but a very beautiful and fragrant perennial, one that will live for several years and make a fine display in the garden. The newer varieties bear large flowers and are of rich colors and peculiar markings. The strain of seeds I offer cannot be excelled:

Complete mixture of Biennials and Perennials, put up by steam-power packers, per packet 10 cents.
Seeds for the Window Garden.

Many persons prefer to start their window plants from seeds, and this will usually be found the more satisfactory method of obtaining them, as by this means we learn more of their habits; and treating them from their infancy our love for them is greater than if acquired after they are fully grown. The seeds I offer are fresh, and will germinate as readily as any to be obtained. All are of the finest quality. Sow carefully in boxes of sifted soil, covering to the depth of twice their thickness. Dust-like seeds should not be covered. Transplant or thin out to prevent damping off. May be the best time to sow.

SEEDS OF GIANT TUBEROUS BEGONIAS.

Finest mixture, per packet 3 cents, 4 packets 10 cents.

The great beauty of the Giant Tuberous-rooted Begonias, and the ease with which they can be propagated from seeds created a demand for first-class seeds, and these I can supply, imported direct from the most successful European growers of this plant. The seeds are very small, and should be sown in pressed rows of smoothly packed, sifted woods earth, left uncovered, except the pane of glass placed upon the pot, and watered by setting the pot in a saucer of water. Keep shaded and never let the soil dry out. Seedlings started early in spring will often bloom in late autumn. When winter comes cease watering and set the pots aside, where the bulbs will be dry and at a temperature of 50°. In March shield the young plants from the sun, repot, and again water, and the plants will soon spring up and begin blooming. The seeds I offer are fresh and first-class, and in skilled hands will do well. Those who have no knowledge of the propagation of seeds should not attempt to sow Begonia seeds, however, as they are exceedingly small, and require careful treatment. These directions will also apply for sowing other small seeds. I can supply the following colors:

Special mixture, all the above varieties, machine packed, four packets 10 cents, per packet.

Tuberous Begonias are gorgeous bedding plants. They like a moist soil. Mulch the bed well with stable litter as summer approaches. Shelter from the wind by a low lath or picket border.

CHOICE HYBRID CALCEOLARIAS.

Finest mixture, 4 packets 10 cents, per packet 3 cents.

Calceolarias have long been celebrated for their graceful form, odd markings and general beauty. The seeds are sown in the spring, and the plants usually come into bloom in the window or conservatory in about ten months. They are not difficult to start, though the diminutive size of the seeds and young plants calls for skillful management in order to succeed. As a showy window plant the Choice Hybrid Calceolarias are greatly admired. The flowers are large and showy, very freely produced, are gorgeous in coloring, and remain long in bloom. These Calceolarias deserve a faithful trial. When successfully grown they are among the most satisfactory and enjoyable of house plants, and well repay the care they require. The seeds I offer are of the finest quality. There are none better.

271
New Fancy-leaved Coleus.

Have you seen any of the New Fancy-leaved varieties of Coleus? If you have not just try a packet of seeds. The plants are easily grown from seeds, and soon begin to develop their colors. Seedling plants are not all handsome, but many will show unusual and beautiful colors, and excite great admiration. Some leaves are massive and serrated, some crimped and fringed, others long, narrow and graceful. All are richly variegated. The seeds I offer are put up by our steam-power packers, and are of the finest French and German strains, all imported from the best European florists this season.

Named sorts, finest mixture..................................................10 | Large-leaved, finest mixture............................................10
Special mixture, all varieties, machine packed, four packets 10 cents, per packet..................................................3

New Giant-flowered Persian Cyclamen.

Finest mixture, machine packed, 3 cents per packet, 4 packets 10 cents.

Cyclamen plants are excellent for either window or conservatory, as they bloom freely throughout winter with but little care. The flowers are very graceful in shape, delicate in texture, and rich and varied in color, and of the superb strain I offer they are immense in size. The seeds are as large as those of the garden Balsam, and as sure to germinate, though the young plants rarely appear till a month after the day they are sown. Seedlings may be bedded out in a shady place during summer where they will take care of themselves, or they may be grown in pots, shifting into larger pots as the plants grow. Secure good drainage, and do not let the plants suffer for want of water. If neglected the plants will become stunted, and will not bloom the following winter as they should. 4 packets 10 cts.; packet 5 cts.
Geraniums are easily grown from seeds. It is by this means most of the choice new varieties are obtained, and the work is novel and interesting. The seeds come up irregularly, some appearing in a few days and others in many days, perhaps weeks. The plants grow rapidly, and are strong and thrifty. They will usually come into bloom the following autumn or winter. It is preferred they can be safely kept over winter in the cellar, then bedded out to bloom the following summer. The mixture of Zonal Geraniums I offer is first-class, and will yield many fine varieties. Geraniums are of easy culture and always thrive, even under careless treatment. They should be even more popular than they are. Per packet 3 cents, 4 packets 10 cents.

OTHER GERANIUMS OR PELARGONIUMS.

SUPERB SELF-COLORED
and TIGERED GLOXINIAS.

Gloxinias are among the most beautiful of summer-flowering bulbs, and much interest has been taken in them during the past two or three years. The foliage is velvety and very graceful, while the flowers are large, of many colors and exceedingly attractive. The seeds are small, but are considered of easier culture than those of Tuberous Begonia. Started early the seedling plants will bloom in late autumn. The seeds I offer are of the finest large-flowered strain, and are unsurpassed in quality:

Robusta, mixed........ 10 | Horizontalis, mixed... 10 | Tigrina, spotted....... 10
Robusta, pendula........ 10 | Striatiflora, striped... 10 | Delance, scarlet....... 10
Mont Blanc........ 10 | Punctata, spotted....... 10 | Empress Frederick........ 10
Special mixture, finest quality, four packets for 10 cents, per packet........ 3

Mr. Park:—I had good success in raising Gloxinias from seeds, and the plants were all thrifty and beautiful. One had eleven blossoms on at one time.—Miss Davis, Chenango Co., N. Y., Feb. 12, 1896.

New Large-flowered
Bruitant Heliotropes.

Finest mixed, per packet 3 cents, 4 packets 10 cents.

The new strain of large-flowered Heliotropes sh... is cultivated by all who love fragrant flowers. They are easily grown from seeds, are of vigorous habit, very free-blooming, and the flowers are large and borne in great clusters. All the leading colors are represented, and none of the window or garden flowers are more deliciously scented. Seedlings started early in spring will begin to bloom in summer and yield profusely throughout the season. They are valuable for either pots or beds.

I can supply the following colors:

Large-flowered, white 5 | Large-flowered, light blue 5
Large-flowered, violet 5 | Large-flowered, dark blue 5
Large-flowered, finest mixture, 4 packets 10 cents, per packet........ 3

Mr. Park:—An excellent and cheap way to get a good start of Heliotropes is to raise them from seeds. The seeds are usually expensive, but if one raises half a dozen plants from one packet it will well repay all trouble. — Laura Jones, Lincoln Co., Ky.

[20]
Large-flowered Chinese Primroses.

THE BEST OF ALL WINTER-BLOOMING PLANTS.

Price, machine packed, finest mixture, 3 cts. per pkt., 4 pkts. 10 cts.

I offer unrivalled seeds of Chinese Primrose, in all the leading varieties. These seeds were raised for me by the best French and German florists, and imported direct this season. They are all of the finest fringed, largest-flowered strains, and are superior to the common seeds of this flower. There are no better seeds to be obtained than those I supply, even though my price does seem ridiculously low. Each packet contains from 20 to 25 seeds, and the mixtures offered were prepared by myself in person.

I need hardly speak of the merits of the Chinese Primrose as a winter-blooming window plant. It is regarded by nearly all amateur florists as unsurpassed. Seeds start in from two to three weeks, and if sown in April or May the plants will be in full bloom by Christmas. They will bear neglect and ill-treatment perhaps better than any other plant, and still yield a display of flowers. Indeed, you can hardly treat them in any way but they will not show its bright flowers every day during winter. If you succeed in raising but a plant or two from a packet of seeds you will be abundantly repaid.

It is better to buy four packets, and sow at four different times. Some of the efforts will prove successful. I offer these seeds with entire confidence. You will find their product of surpassing beauty, as I know their quality cannot be excelled:

The Lovely Boston Smilax.

Machine packed, 3 cts. per packet, 4 packets 10 cts.

The Boston Smilax is one of the most beautiful window vines known, charming for a pot trellis or for window display. It is easily grown from seeds. Its flowers are not showy, but very fragrant. Special mixture, 15 cents per half ounce, two packets 25 cents.
NEW IMPERIAL

Japanese Morning Glories.

Single and Double, splendid mixture, machine packed, 3 cents per packet, 4 packets 10 cents.

My friends know that I rarely offer or recommend a new flower unless it has superior merit, and as the New Japanese Morning Glory is highly praised by many seedsmen this season, my endorsement of it will be gladly noticed. I believe that in this lovely vine we have a new floral novelty of great beauty and value. The vines are as easily grown as those of the common Morning Glory, develop rapidly, have dense, lovely and varied foliage, bloom early, are very floriferous, and retain their beauty till the coming of frosts. Who does not love and cherish fond remembrances of the old-fashioned Morning Glory. It has a warm place in every heart, because of its easy culture, and its rich beauty and usefulness. But here we have the old-fashioned Morning Glory in magnified beauty, the foliage larger, of a greater range of colors, and many of the flowers blotted, striped, starred, mottled and margined as indicated in the engraving, the wealth of these great, glowing flowers charming the beholder every morning with their enchanting beauty. Some are royal purple with red throat and white margin, some carmine with white center, some copper color with rich shadings, and these peculiar rich variegations are found throughout a great range of shades of white, red and blue. Some have double flowers, but these are not generally considered as handsome as the single-flowered kinds. I have seeds of a very superior quality, mostly imported direct from Japan, and the flowers produced will embrace all the odd shades and markings for which these great flowers are noted.

Single-flowered in splendid mixture, per packet ........................................... 10
Double-flowered in splendid mixture, per packet ........................................... 10
Double and single in splendid mixture, machine packed, 4 packets ........................ 3 for 10 cents, per packet

THOSE BEAUTIFUL CLIMBING NASTURTIUMS.

I call particular attention to the special mixture of Climbing Nasturtiums offered on page 24. It embraces the choicest varieties, as follows, and I can supply them separately, if desired, at 15 cents per ounce. They are among the brightest, sweetest and best of our garden annuals, and should be grown at every home.

Atropurpureum, crimson.......................................................... 5
Coccineum, dazzling scarlet, very fine............................................. 5
Dunnet's Orange, bright orange.................................................... 5
Edward Otto, rich bronze, glittering............................................. 5
Hemiphilicum, orange, very handsome......................................... 5
Special mixture, all the above splendid varieties, machine packed, ounce 12 cents, 4 packets 10 cents, per packet

SEEDS OF HARDY SHRUBS AND VINES.

Many of our hardy Shrubs and Vines may be raised from seeds. We offer seeds of the following:

New Large-flowered Primula obconica.

Price 3 cents per packet. Four packets for 10 cents.

As an everblooming window plant the New Large-flowered Primula obconica should stand among the first on your list. It is of the easiest culture, and it has handsome foliage and rich profusion of exquisite bloom, together with its everblooming habit commend it to all who cultivate plants in the window or conservatory or window. It is a rather conservative of the bloom, and as a winter-blooming plant it is most beautiful and desirable, as it blooms even under unfavorable conditions, and especially free-blooming during the winter months. The large sprays of charming large-flowered flowers are prized for cutting. For the beauty of a blooming window can be imagined by reference to the engraving. The Large-flowered variety here offered is much superior to the original species introduced some years ago. It is not to be praised too highly for window culture. Price, 3 cts. per pkt., 4 pkts. 10 cts.

**MISCELLANEOUS FLOWER SEEDS.**

Flowers of Annuals. — Contains chrysanthemum, zinnias, and others. Price 9 cents per packet.

Flowers of Biennials and Perennials. — Contains chrysanthemums, zinnias, celosias, and others. Price 10 cents per packet.

Flowers of Seeds for the Window Garden. — Contains seeds of more than 50 genera, and represents perhaps 250 species and varieties. Price 10 cents per packet.

Flowers of Everlastings and Grasses. — Contains seeds of the most popular genera and species. Price 10 cents per packet.

Flowers of Climbers. — Contains seeds of the most popular genera and species. Price 10 cents per packet.

Flowers of Buds. — Contains chrysanthemums, zinnias, and others. Price 9 cents per packet.

Flowers of Everlastings and Grasses. — Contains seeds of the most popular genera and species. Price 10 cents per packet.

Flowers of Climbers. — Contains seeds of the most popular genera and species. Price 10 cents per packet.

Flowers of Buds. — Contains chrysanthemums, zinnias, and others. Price 9 cents per packet.

**POPULAR MIXTURES OF FLOWER SEEDS.**

**Mixture of Annuals.** — Contains chrysanthemum and zinnias, and others. Price 9 cents per packet.

**Mixture of Biennials and Perennials.** — Contains chrysanthemums, zinnias, celosias, and others. Price 10 cents per packet.

TIME REQUIRED FOR SEEDS TO GERMINATE.

The seeds furnished are all fresh, and will certainly grow if fairly treated. Sow a portion of each package at the first sowing, and allow ample time for germination. Study the following list to know when to expect the plants to come, as all the seeds germinating at the same time. Never condemn seeds without three different trials, and without allowing sufficient time for germination.

THREE TO FIVE DAYS.

Ageratum.

The choicest Seeds, Bulbs and Plants supplied direct to the purchaser by mail, express or freight at the lowest possible prices for first-class stock. Enjoys a patronage of nearly half a million of discerning and liberal-minded people, and is placed among the choicest selected among the choicest publications of more than a quarter century by diligence, integrity and constant and earnest efforts to have every sale satisfactory, and a bid for further trade.

The following publications are issued:

PARK'S FLORAL GUIDE, a descriptive and priced list of seeds and bulbs, illustrated. Issued mid-winter. Free to prospective buyers. To others 5 cents.

PARK'S SURPRISE, descriptive and illustrating a great variety of garden and window plants, which are offered at surprisingly low prices. Issued in spring. Free to intending purchasers; to others 5 cents.

PARK'S BULB LIST, describing and illustrating the finest garden and window bulbs suitable for planting in au-

summer. Issued by intending purchasers; free to readers of PARK'S FLORAL MAGAZINE, illustrated, entirely floral; a genuine treasury of floral and botanical information; issued monthly. Geo. W. Park, B. Sc., Editor. 50 cts. a year. Circulation more than 300,000 every month.

Address all communications to the proprietor GEO. W. PARK, Seedman, Florist and Publisher, LIBONIA, FRANKLIN CO., PA.

50 CENTS' WORTH OF SEEDS FREE!

Anyone remitting 50 cents for a yearly subscription to PARK'S FLORAL MAGAZINE prior to July 1, 1897, may select any 50 cents worth of seeds or bulbs from this GUIDE free. If you have a neighbor to club with you, sending $1.00, you may select 50 cents worth of seeds or bulbs, and I will send you a choice of seeds or bulbs as an acknowledgment of your effort. Six subscriptions and $3.00 worth of seeds for $2.50. Get a club. See MAGAZINE for further particulars. Address GEO. W. PARK, LIBONIA, FRANKLIN CO., PA.
Summer=Flowering Bulbs.

ACHIMENES.
These are rare but beautiful and easily grown bulbous plants. The Tuberous Begonias I offer are of the finest sorts, are large and showy, and very graceful in form. The plants are of easy culture and bloom freely throughout the summer. Price, in splendid mixture, 10 cents each, $1.00 per dozen, $7.00 per hundred, prepaid by mail.

ANEMONE.
Fine tubers, red, white and blue, mixed, 5 cents each, 50 cents per dozen.

ANOMATHECA CRUENTA.
The so-called Scarlet Freesia, a bulbous plant very popular where introduced, and highly praised. Price, 10 cents each, $1.00 per dozen.

SPLENDID TUBEROUS BEGONIAS.
The Tuberous Begonias I offer are of the finest sorts, and will produce very large flowers of the brightest and most distinct colors. The tubers are large, and of superior vitality. They are of easy culture. Pot in loose, porous, well-drained soil, placing just so the crown will be above the surface. When active growth begins water liberally. Give plenty of light, but shelter from wind and hot sun. I can supply the following sorts:
- Fine white, each 5 cts, per doz. 50 cts, per hundred, $4.00.
- Yellow
  - 5 " 50 "  " $4.00.
- Bright red
  - 5 " 50 "  " $4.00.
- Rosy pink
  - 5 " 50 "  " $4.00.

CALADIUM ESCELLENTIUM.
Large bulbs, 15 cents each, $1.50 per dozen. Small bulbs, 5 cents each, 50 cents per dozen.

DOUBLE DAHLIAS.
Fine named varieties, 15 cents each, $1.50 per dozen.

GLADIOLUS, CHOICE MIXED.
A very fine strain of French Hybrid Gladiolus. Blooming bulbs, 25 cents per dozen, $1.50 per hundred. Large Bulbs, 50 cents per dozen, $3.00 per hundred. Lemoine's, mixed, 55 cents per dozen, $3.00 per hundred.

BEAUTIFUL GLOXINIAS.
Gloxinias are rapidly coming into favor because of their great beauty and the little care with which they may be grown. Treatment same as recommended for Tuberous Begonias. They are equally as satisfactory as Begonias, and when better known will be equally as popular. Finest mixture of choicest strains, large, handsome tubers, per dozen 85 cents, each 8 cents.

Mr. Park:—I have over sixty Gloxinias and have a succession of bloom from April till October. They are much admired.—Inocg, Mich.

HYACINTHUS CANDICANS.
Large bulbs, 10 cents each, $1.00 per dozen.

MONTBRETIA CROCOSMII FLORELA.
A beautiful bulbous summer flower not unlike a small Gladiolus. Treatment same as for Gladiolus. Price, 5 cents each, 50 cents per dozen.

LILIUM AURATUM.
Splendid bulbs, 15 cents each, $1.50 per dozen.

MADEIRA VINE.
This is a rapid grower, bearing dense masses of clean, heavy, glossy foliage, and in autumn numerous racemes of deliciously-scented white flowers. Fine tubers, 5 cents each, 50 cents per dozen.

TIGRIDIAS.
Tigridia grandiora, per dozen 50 cents, each 8 cents. Grandiflora, red and white, per dozen 50 cents, each 8 cents.

DOUBLE TUBEROSES.
These bulbs are Southern grown, and in fine condition. They will produce large spikes of choice bloom. Extra bulbs, Excelsior Pearl, per dozen 35 cts, each 4 cents. Blooming-sized bulbs, per dozen 25 cents, each 3 cents.

TYDEA.
A lovely Gesneraceous plant, not unlike an Achimene, but of more vigorous growth. A rare and superb summer-blooming pot plant. Mixed colors, fine bulbs, 10 cents each, $1.00 per dozen.

TRITONIA AUREA.
A little bulbous plant, less than a foot high, bearing a spike of showy golden flowers. Very pretty. Price 10 cents each, $1.00 per dozen.

WATER LILIES.
White, 20 cents each, $2.00 per dozen. Yellow, 30 cents each, $2.00 per dozen.
